Kaleidoscope

FRAMING LIMITED

PERFECT PRESENTATION

We work with professionals to develop presentation solutions that stand out. Kaleidoscope is dynamic, believing the best results emerge from an evolving mix of art and technology. Striving to exceed expectations, prepare to experience fully bespoke services, irrespective of volume, combined with premium products without the premium price tag.

CatsDog Photography

PERFECT PARTNER

Stunning presentation is magic, achieving it is not. Behind the scenes you need a partner that understands the bounds of framing but is prepared to stretch them. Kaleidoscope provides sophisticated online software for the creative community to design, build and cost solutions with ease. Be it photographic, fine art or multimedia we trade with you and for you.

PRESENTATION PARTNER

Kaleidoscope emerged from the acquisition of an established contract framing business in 1998. From the outset, new ownership changed the focus from high volume standard products to high quality bespoke services. Today, the commitment to high quality bespoke manufacturing has not diminished. Even though the product portfolio is more diverse, it is delivered with the same attention to detail and responsive approach appreciated by the most demanding clientele.

Customer focus

In an era of automation, tactile customer service is often lacking. Not so at Kaleidoscope.
Systems provide easy access to products and ordering, but people provide the account and product knowledge to back them up.
We build relationships and strive to be an extension of your business.

Expert manufacturing

The workshop is a real mix of craft and machinery. We employ skilled hands, sophisticated in-house software and specialist equipment. Nothing is left to chance. Attention to detail in all facets of the business delivers the quality of product and service our clients deserve. Our aim is to not just meet your expectations, but to exceed them.

Dedicated team

Kaleidoscope comprises a diverse collection of people. We value difference but a common thread is their pride and commitment to quality products.
Working with Kaleidoscope gives you access to a small team of people who understand their product and want to help your business succeed.

A great proportion of our clients are photographers. We entered the photographic sector in 2004 following a successful partnership with a professional photography group. They saw our potential before we did and we've never looked back.
First to evolve a full product assembly option, bespoke sizing soon followed. It took a bit longer to be convinced that we could be good at printing too. Nevertheless, here we are printing for an ever increasing number of clients on an increasing variety of media, including fine art giclée.

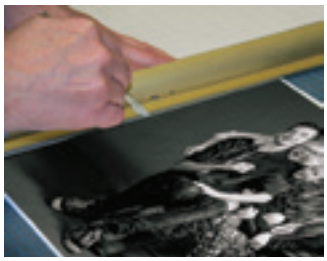
The Kaleidoscope touch...

When you've created a frame, leave the professionals to the task of finishing the whole product. Little added extras make all the difference.

Print

We use large format printers with selected media. Alternatively, submit your own media ready to frame.



Glaze

There are several options available and all are explained in detail on the website. From acrylic for exhibitions and public display to anti-reflective art glass for that really special project.

Seal

To reduce dust and pesky storm flies, we uniquely create a seal between the glass and content before assembling into the frame.

We'll add your logo and contact details.

Present

A high quality unbranded white presentation box exudes an exclusive feel. All labelled with your studio name and your client reference if required.

Information

Throughout this section, adjacent to each moulding, you will find two icons. These icons indicate a comparative cost and the maximum length* available.

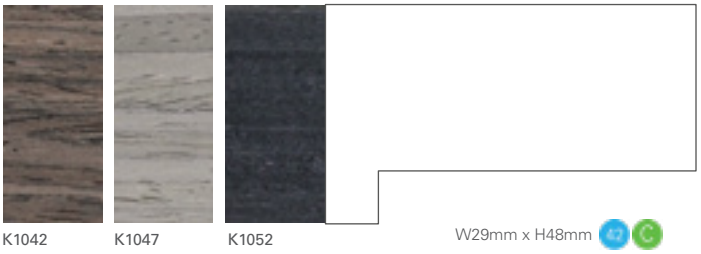
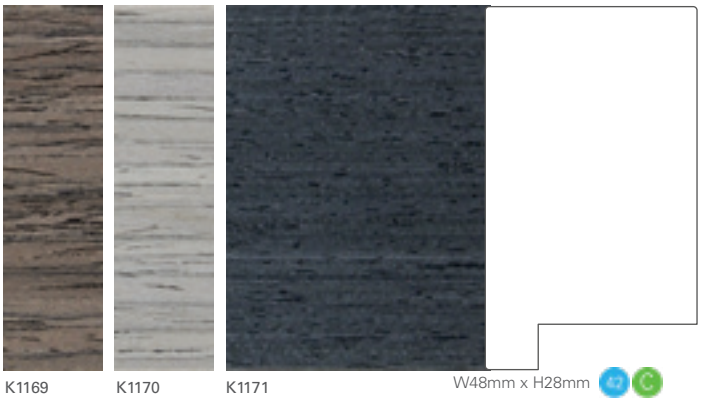
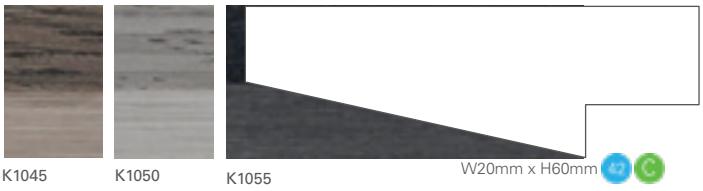
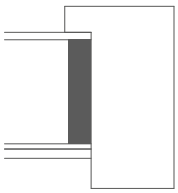
Opus





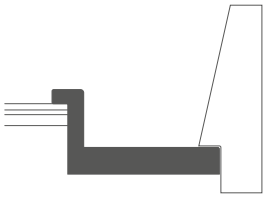


Jonathan Yearsley Pet and Equine Photography



information

The deep rebated Opus profiles can incorporate a matching wooden slip. This creates a significant distance between the contents and the glass.



information

The Opus bevel profile looks great as it is. For a statement piece there is a wooden shaped insert in white or off-white. This insert can hold either a laminated image or a mounted image behind glass.

information

These mouldings have a stained wood veneer. At point of order there may be variances in both colour and grain. With age, all finishes will oxidise and change in colour.

Packs

K215 K212 W20mm x H13mm

Wood frames from the Gower range

Packs are designed to offer cost-effective desktop frames for marketing. Add a mount and a box, and even a budget frame can cut the mustard when it comes to classy presentation.

Available in desktop sizes only, they are sold in packs of 5. Supplied with a stand and glass. Single mounts and flat pack white boxes come as optional extras.

Standard mounts are available in White or Off-White mountboard.

Available in desktop sizes

7X5 • 8X6 • 8X8 • 10X7 • 10X8
10X10 • 11X5• 12X8 • 12X10 • 12X12

Other sizes can be manufactured on request.
To obtain parallel pricing, a minimum quantity of 25 is required.

Premium Packs

W20mm x H20mm K1116 K1117 K1118 K1119 K1120

Wood frames from the Opus range

Shutter & Co Photography

Premium frames in multi packs for that extra finesse. Wrapped with wood veneers for a beautiful natural texture, perfect for the modern day home. These packs are provided with mounts and presentation boxes as standard.

Available in desktop sizes

10X8 • 12X9 • 12X10

Other sizes can be manufactured on request.
To obtain parallel pricing, a minimum quantity of 25 is required.

Sales Support

When it comes to framing, the liberty to choose can be daunting and exciting in equal measure. Nothing is as powerful as a full-size framed image to stimulate and fire the imagination. Likewise, in an age typified by freedom of choice, it is important to have all options close to hand. We offer chevrons and mount samples to support your sales and in addittion offer display discounts on all of our products all year round.

Display

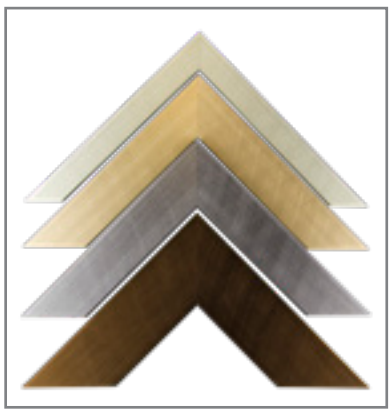
Even if there is no requirement for a retail display, it is worth investing in a practical format that enables easy access to the available options.

Half Board

Full Board

Mounts

With a vast range of mount combinations, embellishments and colours, the mount box is an indispensable reference for creating stylish options on framed products.



Chevrons

Premium Collection are available in ranges, compromising of incremental sizes and colour options. The Aluminium Collection offers unique slimline, cutting edge profiles.

Personalisation

Replicate your signature using a pen plotter. Signature applications are available in pencil, black and silver pen, or have your signature debossed!

Replicate a signature with a self-inking stamp. Stamps can be purchased from a third party provider and will require testing before forwarding to Kaleidoscope.

Text to complement an image(s) can be added using a pen plotter. There are a number of set fonts to choose from.

Take a look at our website for details

Wild Earth Fine Art

Printing

Printing is available to complement our full assembly framing service and is an integral part of the manufacturing process for the other products that we offer. We do not colour correct or edit images, we simply print the file as we receive it.

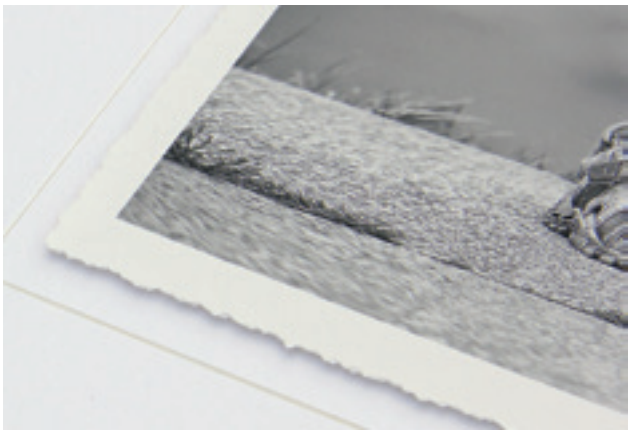
- Large format colour inkjet printer - Epson CP1000
- Canvas • Fine Art
- Ultra White • Pearlescent
- Large upload capacity via the website
- Adobe 98 & SRGB colour space accepted
- Jpeg & Tiff files accepted
- Test printing packs available

Giclée Printing

The word Giclée is derived from the French verb gicler meaning "to squirt or spray". Giclée is used to describe a fine art digital printing process combining pigment based inks with high quality paper. Giclée prints are printed on a variety of substrates or mediums, the most common being cotton rag. This fibrous paper transforms a photograph into a painterly, soft image that adds a classy, decorative feel making it perfect for everything from portfolios to art prints for exhibitions.

Surprisingly, amongst our peer group we were the first to routinely offer fine art printing. We now regularly deliver high quality print runs for artists, illustrators and photographers alike.

Available with décollage edge



Mackney Photography

Mounted prints

You don't always need a frame. A mounted print can look exceptional if it is presented well. Mounts cut to any size, images printed to any size and supplied with a choice of backing for a neat finish. Computerised signatures can be applied along wiht an option to deboss.

Box Installation

Images are laminated and framed in a range of mouldings standing 31mm deep.

The layouts available have been designed to sit together within a single presentation box. Instantly the recipient gets the wow factor when the box is opened. The consumer then has the option of hanging them in the format of our design or however they choose.

information

The mouldings marked with an asterisk have a natural hardwood veneer. The appearance of natural wood is not constant. At point of order there may be variances in both colour and grain. With age, all finishes will oxidise and darken.

Box Frame

Prints are laminated onto 3mm PVC foam board at any size up to 48X36. The laminated print is then placed into a linear moulding. There is a range of composite mouldings that are ideal as a cost-effective yet attractive solution.

- 54mm or 31mm frame depth
- Satin lamination
- Pearlescent prints available
- Sizes up to 48 x 36 inches

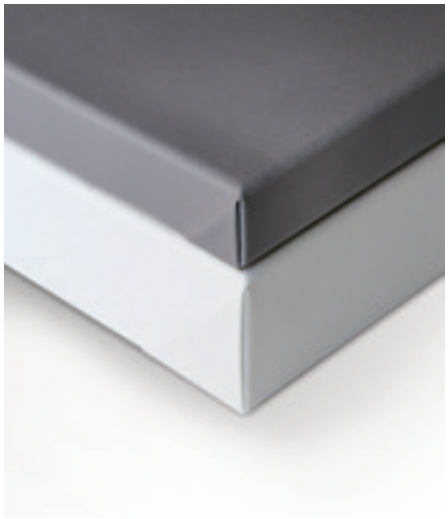
Canvas Wraps

A canvas wrap offers a display option with warmth. Utilising a poly cotton blend material softens the image whilst bringing it to life. Available as a full image wrap or with coloured edges, the depth of the canvas is also optional.

Available at any size up to 48X36 inches, they all have several coats of matt lacquer applied prior to stretching. The canvas is stretched, by hand, over a solid wood frame faced with board to prevent the canvas deforming during handling. Flush fixings allow the canvas to hug the wall.



30mm (shallow) or
55mm (deep)

Blocks

Vicki Knights Photography

The blocks are made of MDF and can be ordered at any size from 8X8 up to 48X36. Prints are laminated directly onto the blocks which can then be finished in a choice of appearances to suit budget and taste.

Desktop Blocks

Made as our other Block products but with the addition of a stand, easy to use and looks great!

Edge

Minimalist products are in vogue. For some, whilst the sharp look is important, it can appear a little stark. This is when an Edge solution is useful. Edge is available in a number of finishes, painted woods, foils and real wood veneer wraps. Available with either Canvas Wrap or Block inner sat down within the frame, drawing the viewers eye to the image within.
